

DIVERSIONDAO WHITEPAPER

“A revolution in investment construction and management on a decentralized blockchain platform”

Investing in build up and managing a sports club is easier than ever. Create, propose new ideas and new directions by voting and monetizing the performance of the clubs you invest in.

OUR MISSION

The core value that DiversionDAO brings to the Blockchain community is based on the DAO protocol

DiversionDAO offers the opportunity to become a potential investor for sports projects in our ecosystem as a shareholder when holding a sufficient amount of DIVER tokens. The voting permission is held even when the token is staking in the Staking-Earn system.

With investor protection and support features. The DiversionDAO platform supports all Blockchain-based sports communities.

- Use \$DIVER to Staking
- Vote permission for a project to develop on the DiversionDAO system
- Invest in new projects via DiversionDAO's Launchpad
- Support new Sports Communities
- Meeting at the sports matches
- The sports souvenir market

DiversionDAO aims to change the world through financial, technical and cognitive efforts - ultimately creating a new field of investment.

BASIC FEATURES

Decentralized multi-chain support platform from the Crypto world to the real world. Unlimited any sports, any Fan token.

TOKEN STAKING

PRIVATELY ALLOCATION

VOTE ON DAO

**SPECIALIZED SPORT
COMMUNITY**

SOUVENIR MARKET

LAUNCHPAD PLATFORM

MEETING ON MATCHES

NFT MARKETPLACE

DiversionDAO creates a large platform for everyone in both the sports and esports. The DiversionDAO ecosystem features towards consensus and maximum risk control. Investors, users and beneficiaries all have full control over their assets.

ADVANCED FEATURES

STAKING ON DIVERSIONDAO

Stake and Earn, the property is expanding forever

In the early stage of development. We allow investors to stake their tokens on our Staking system. This creates trust and a strong link between the investor and the developer team. In addition to APY rewards, the voting permission on DAO is held even when the token is staking in the Staking-Earn system.

Each pool can be farmed for 21 days with flexible APY up to 6800%. The early investors won't need to worry about interest, safety, and long-term of our project

DIVER LAUNCHPAD

The platform to launch the Fan token projects

Specialized launchpad supports the development and launch of voting Fantoken projects initiated by shareholders in the DiversionDAO ecosystem. We aim to be focused and specialized in an ecosystem. Investors are always protected from the great risks of venture capital when they comply with the rules.

What about the specific features and roadmap that will be updated in Whitelist version 2

TOKEN DISTRIBUTION

TOKENOMICS

Buy fee	6%
Marketing	3%
Liquidity	3%

Sell fee	6%
Marketing	3%
Liquidity	3%
